prosperous future:

ICPI Certified Concrete Paver Installation Program

presented by:

PAVESTONE[®]

Improving Your Landscape[™]

1-800-245-7283

About the Program:

This practical two-day course is designed to enhance the skill and knowledge of individuals involved in the construction of interlocking concrete pavements. The following topics are included in the curriculum:

- basic material estimating
- paver installation
- job layout
- soil classification
- documenting job costs
- soil compaction
- base material compaction
- edge restraints
- bedding sand

Who Should Attend?

This course is for all companies and persons involved in the residential and commercial installation of interlocking concrete pavements including:

- company owners
- job superintendents
- forepersons and supervisors
- crew leaders.

Why a Certification Program?

Several thousand companies throughout North America build interlocking concrete pavements. This ICPI program establishes the minimum knowledge required to build pavements with concrete pavers. The ICPI Certified Concrete Paver Installer Program teaches industry standards needed by company owners and supervisors in this growing business.

Why Should You Attend?

- **Knowledge:** Industry professionals will share industry standards of construction of interlocking concrete pavers.
- **Recognition:** Certificates of proficiency will be granted to all individuals upon successful completion of this two-day course and exam.
- **Promotion:** Certification can be a powerful marketing tool to your clients by further establishing your credibility as a knowledgeable contractor.

Reasons for ICPI Paver Installation Certification

- **Meet industry standards:**
ICPI sets the standards of the industry. This certification program will help you meet or exceed these standards.
- **Reduce costs:**
What you learn will help you reduce or eliminate costly callbacks.
- **National promotion:**
ICPI promotes certified installers in its literature, specs, web-site and videos.
- **Benefit your bottom line:**
Professional instructors will show you how to get the most dollars for your work.
- **Dispute resolution:**
Adherence to ICPI guidelines means you have the "weight" of industry on your side in case of a dispute.
- **Justify your price:**
Being able to prove to your customer that you are installing interlocking pavements to industry standards can help you explain why your price is higher than that of your competition.

Course prerequisites

The ICPI Certification Program is designed to enhance your existing skills and experience. It is not intended to provide beginner how-to information. The following prerequisites are therefore helpful but not necessary for enrollment in the ICPI Certification Program.

- Your employer or company should contract to install interlocking concrete pavements.
- Your occupation should be company owner, supervisor, foreperson, estimator, crew leader or crew member.
- You should have a high school diploma or equivalent degree.
- You possess a minimum of one year practical experience in the installation of interlocking concrete pavers.
- You are able to read construction drawings and provide a job layout for interlocking concrete pavers for residential projects.

PROGRAM OUTLINE:

- Segmental Retaining Wall Overview Session (2 Hours) **available in some markets*
- ICPI Introduction
- Job Planning and Documentation
- Estimating Quantities, Job Flow and Layout
- Soil Characteristics and Compaction
- Base Materials
- Edge Restraints
- Bedding and Joint Sand
- Section and Installation of Pavers
- Estimating Job Cost
- Contract Basics
- Review and Exam

About the Sponsors

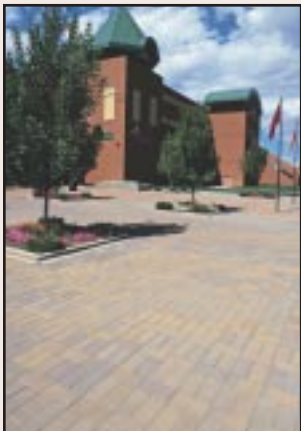

Interlocking Concrete Pavement Institute (ICPI)

The Interlocking Concrete Pavement Institute (ICPI) was formed by the manufacturers of concrete pavers to promote their use through education of high installation standards. Success as an installer of concrete pavers requires high-quality installations with sound business practices. The ICPI program establishes industry standards through this certification program, as well as other continuing education courses.

Pavestone Company

Pavestone Company, the nation's largest producer of interlocking concrete pavers and segmental retaining walls provides the strength of a national company with local customer service and expertise. Pavestone Company is a charter member of the ICPI.

Now in their 25th year of operation, Pavestone Company has established its position as the dominant player in pavers, retaining walls, erosion control systems, architectural paving slabs and precast architectural site furnishings. Our 17 manufacturing branches provide local distribution to landscape architects, contractors, installers, home builders and developers. Our dedicated account representatives provide training, certification sponsorship and marketing support as well as unmatched customer service. www.pavestone.com

Disclaimer and Understanding

The Interlocking Concrete Pavement Institute (ICPI) in no way guarantees that participants in the program will be able to pass the written examination scheduled at the conclusion of this two-day educational program. The Paver Installer Certification demonstrates a basic level of knowledge in the construction of interlocking concrete pavements and successful completion of the written examination. However, possession of an ICPI Certificate in no way guarantees the quality of workmanship of participating companies and individuals. Specifically, ICPI certifies successful completion of the examination. Successful participants agree to indemnify and hold harmless the ICPI, its officers, members, representatives and staff from all and any claims due to negligence, omission, errors, and use of faulty paving materials or workmanship.
