

**IMPACT ON YOUR BUSINESS:** Our eight unique quarry locations deliver the desired look and function you envision for your next project.

Whether you choose to construct a waterfall with Holey Boulders, or arrange a patio with Rustic Pavers, the possibilities are as endless as your imagination. As one of civilization's most sustainable building products, is easy to Go Green with natural stone!

Eden Stone Company and Valders Stone & Marble are quarriers and fabricators of Type III, High-Density Dolomitic Limestone. Per ASTM testing standards, Type III represents the highest performance characteristics of a limestone material. This gives us the ability to execute unique applications for commercial, residential, governmental, recreational, and retail clients worldwide. Our capabilities and expertise allow us to fabricate products such as building veneer, landscape stone, and architectural cut stone. All of our natural stone products feature a broad range of colors, patterns, finishes, and textures to help create the perfect showpiece that suits your style. Our eight quarry locations give us the versatility to match the requirements of your project with the specific stone product you desire.
